## Enroll

---

### STEP 1

- a. Move the Lamp Module within 5 feet of the 2GIG panel.
- b. **Press** **SERVICES** from the home screen of the panel.
- c. **Select** **Z-WAVE**.
- d. **Press**  on the bottom right corner and enter the Installer Code.
- e. **Select** **ADD DEVICE**. The panel will say "discovering devices."
- f. On the Lamp Module **press** the **ENROLL** button. The LED should flash white slowly while in learn mode.
- g. You should see an indication on your control panel that the device was added and the LED will stop flashing and go solid.
