V720W CAMERA Wireless Outdoor Night Vision Camera

Required Items

- Camera and power adapter (included)
- Broadband (Cable, DSL, or Fiber Optic) Internet connection with router
- Personal computer or web-enabled tablet
- Login/password for the your Alarm.com account
- A router with Wi-Fi Protected Setup (WPS) button or an Ethernet cable

If the router does not have a WPS button, and the camera will be connected to a wireless network, you will need the case-sensitive SSID (wireless network name) and the network WEP or WPA key (if encryption is enabled at the router)

Installing the Camera

- 1. Connect the camera's AC adapter and plug it into a non-switched outlet.
- 2. From a computer or smartphone, connect to the Wi-Fi network named "ALARM (##:##:##)." The numbers in the parenthesis will be the last 6 digits of the camera's MAC.
- 3. From a web browser type in "http://ADCsetup" and press enter.
- 4. This should direct you to the camera's internal configuration website. Follow the on-screen instructions to connect the camera onto a wireless network.
- 5. From a computer on the same network as the camera, login to the customer's account at www.alarm.com/login.
- 6 Type **www.alarm.com/addcamera** into the web browser's address bar and follow the on-screen instructions to add the camera into your account.

	LED Status	Description
	All off	Power off
	Solid <mark>Red</mark>	Power on, system booting
tall	Green blink every second	Local network connection with local IP address

Enrollment

Plug your camera into an AC outlet.

Connect to your internet through your network. Then go back to your internet settings and connect to the network connection named ALARM##:##:##. This is a very restricted network and will be available only to enroll your camera.

While connected to this network, type "http://ADCsetup" into your browser and *press* "enter."

🔓 Link Home	Security X 🔤 Security X	×
← ⇒ C'	http://ADCsetup	≡
	C http://adcsetup	
	۹، http://ADCsetup - Google Search	

When you see this screen, choose your preferred language

Language
English
Espanol

Press "Scan for WiFi networks."

You should see a popup like the one below, which includes your home network. *Press* on the radio button to the right of your network.

Select Wireless Network	
CenturyLink0989 WPA2/AES	100%
HP-Print-08-Officejet Pro 8600 WPA2 / AES	56%
Walkaire WPA2 / AES	49%
GAP WPA2 / AES	(46%)
Refresh	

Now that your network has been chosen, *enter* your Security Key (router password):

You will see the following popup. Click "OK."

	The page at adcsetup says:	×
	Connecting to your APplease refer to your quick installation guide to proceed with the next step.
